

Grants for Journalists Covering Lindau Meetings 2025

74th Lindau Nobel Laureate Meeting: 29 June – 4 July (Chemistry)
#LINO25

8th Lindau Nobel Meeting in Economic Sciences: 26 – 30 August
#LINOecon

Travel & Accommodation Grants for IJP Alumni

In collaboration with the International Journalists' Programmes (IJP), the Council for the Lindau Nobel Laureate Meetings is once again awarding travel and accommodation grants – this time for journalists with a passion for chemistry and economic sciences.

Media representatives interested in covering the **74th Lindau Nobel Laureate Meeting** or the **8th Lindau Nobel Meeting in Economic Sciences** are invited to apply by mid-March for the respective meeting.

The Council for the Lindau Laureate Meetings will cover accommodation costs for up to five nights (#LINO25) or four nights (#LINOecon) and reimburse travel expenses up to a certain pre-defined amount.

About Lindau Meetings 2025

Each year, Young Scientists from around 100 countries meet **more than 30 Nobel Laureates** from the natural sciences, around **20 Laureates in Economic Sciences** respectively, among them some of the most recent Nobel Prize recipients.

The programme includes numerous Lectures, Panel Discussions, and Agora Talks. Additionally, there are plenty of opportunities for informal exchange with meeting participants on the fringes of the sessions as well as during the social events. The communications team will assist in arranging interview appointments with Nobel Laureates and Young Scientists.

74th Lindau Nobel Laureate Meeting – Chemistry

Key themes of the 2025 Meeting, besides general current research in Chemistry, will revolve around:

- Artificial Intelligence in Chemistry: How Is It Changing the Game?
- Can a Circular Chemistry Conceptual Framework be Adopted as a Way Forward to Sustainability?
- The Importance of Science Diplomacy
- Science Communication in a Connected / Wired World

A preliminary programme will be available online in spring 2025 (for reference, see the [structure of 2022 Chemistry Meeting](#)).

8th Lindau Nobel Meeting in Economic Sciences

The Economics Meeting will focus on:

- Research and Innovation in a Tripolar World
- Institutions and Development
- Stability of Financial Systems
- New Approaches to Climate Policies and International Climate Cooperation

A preliminary programme will also be available online in spring 2025 (for reference see the [structure of 2022 Economics Meeting](#)).

Application for the Travel Grant

Journalists of the global **IJP alumni network** can apply by filling out the application form for the specific Meeting they would like to attend and cover (see below).

Application requirements:

- Statement of your specific interest in the respective meeting and its participants
- Your plans for coverage (type and scope of work)
- The media outlet where you aim to publish your articles / media content
- Your social media handles by which you promote the coverage
- CV summary outlining your professional experience and current position
- Links to 2-3 samples of your work

Restrictions

We intend to offer participation in the grant programme to as many different media representatives as possible. Therefore, journalists who have previously received a travel grant are unfortunately not eligible to apply again.

Timeline

The application deadline for the **74th Lindau Nobel Laureate Meeting – Chemistry** is **15 March 2025**.
The application deadline for the **8th Lindau Nobel Meeting in Economic Sciences** is **23 March 2025**.

Applicants will be notified of the results in April.

Accommodation and Travel Reimbursement Process

Upon acceptance for a 2025 media grant, Lindau Meetings will offer an amount to cover travel costs. The awardees will receive a link for self-registration. Once registered, the communications team will book a hotel room in Lindau for the confirmed dates.

Travel costs will be reimbursed after the respective Meeting, based on the submitted travel expense report, including the tickets.

As part of the application process, we recommend that you review your travel route to Lindau in advance to determine suitable travel dates.

Upon arrival at the event venue, travel grant recipients will receive tickets for local busses, which can be used during the meeting week.

Application Forms

Please apply for **one** of the following travel grant programmes:

- **Application for a #LINO25 travel grant (Chemistry)**
- **Application for a #LINOecon travel grant (Economics)**

Contact for Questions

Please notify Martina Johns / IJP (johns@ijp.org) as soon as you submit your application for one of the travel grants.

Subject line: Lin-Chemistry OR Lin-Economics

Media Accreditation

The general accreditation process for the 2025 Lindau Meetings, **independent** of the travel grant programmes, will start in April.

The Lindau Nobel Laureate Meetings: Ambition and History

For over seventy years, the Lindau Nobel Laureate Meetings have served as a unique forum for exchange between Nobel Laureates and Young Scientists. Every summer, more than 600 of the world's most talented Young Scientists and over 30 Nobel Laureates are invited to spend a week in Lindau, on the German side of Lake Constance, for a week full of mutual inspiration and scientific encounters.

Since the first Meeting in 1951, more than 36,000 Young Scientists have participated in the Lindau Meetings – for many of them, it has been an experience that has shaped their careers and lives, making them part of a unique international network of scientific excellence. Through the Lindau Alumni Network, they remain connected with each other and with the Lindau Meetings, even years and decades later.

The original idea of the Meetings goes back to two physicians based in Lindau, Franz Karl Hein and Gustav Wilhelm Parade, as well as to Count Lennart Bernadotte af Wisborg, a member of the Swedish royal family who quickly became the spiritus rector of the Lindau Meetings. From the start, they saw the Meetings as a means to reconcile the peoples of post-war Europe, in particular, the younger generation. Lindau quickly developed into an international forum for the exchange of knowledge between nations, cultures, traditions, and disciplines.
